- Dynamic logo?
    - Site more dynamic in general
- More design elements throughout:
    - ex: bring back the ipod!
- Change boxes?
    - Feels too contained
    - Maybe semi-transparent, remove borders, etc.
    - Play with the grid even?
- Font
    - For body: keep serif, but don't go too thin!
- Images
    - Use google images for better quality if necessary!
